Project Name	Book Store
Maximum Marks	

Project Overview:

Project Name: Book Store

Project Description: The Book Store application is a full-stack web application developed using the MERN Stack (MongoDB, Express.js, React.js, and Node.js). It enables users to browse books, search and filter by category or author, manage wishlists and shopping carts, place orders, write reviews, and rate books. The application also provides an administrator dashboard for managing books, categories, users, and customer orders securely.

Project Version: Version 1.0

Testing Period: 01 June 2025 – 15 June 2025

Testing Scope:

Features Tested

- User Registration
- User Login
- JWT Authentication
- Book Catalog
- Search and Filter
- Book Details
- Wishlist
- Shopping Cart
- Order Placement
- Order History
- Reviews & Ratings
- Admin Dashboard
- Book Management
- Category Management
- User Management
- Logout

User Stories Tested

- User can register successfully.
- User can login securely.
- User can browse available books.
- User can search books by title and category.

- User can add books to wishlist.
- User can add books to shopping cart.
- User can place an order successfully.
- User can submit reviews and ratings.
- Administrator can manage books and categories.
- Administrator can manage customer orders.

Testing Environment:

URL/Location: **http://localhost:3000**

Backend API

http://localhost:5000/api

Database

MongoDB Community Server

Operating System

Windows 11 / Ubuntu 22.04

Browser

Google Chrome Version 138

Test Cases

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Status
TC-001	User Registration	Enter valid details and submit	User account created	Successfully created	Pass
TC-002	User Login	Enter valid email and password	Login successful	Login successful	Pass
TC-003	Invalid Login	Enter incorrect password	Error message displayed	Correct error displayed	Pass
TC-004	Browse Books	Open Books page	Books displayed	Displayed correctly	Pass
TC-005	Search Books	Search using title	Matching books shown	Working correctly	Pass
TC-006	Filter Books	Select category	Filtered books displayed	Working correctly	Pass
TC-007	Wishlist	Add book to wishlist	Book saved	Successfully added	Pass
TC-008	Shopping Cart	Add book to cart	Book added	Successfully added	Pass
TC-009	Remove Cart Item	Remove item	Item removed	Successfully removed	Pass
TC-010	Place Order	Checkout order	Order created	Successfully created	Pass
TC-011	Order History	Open Orders page	Previous orders displayed	Displayed correctly	Pass

Bug Tracking:

Bug ID	Bug Description	Steps to reproduce	Severity	Status	Additional feedback
BG-001	Wishlist duplicate entry	Add same book twice	Low	Closed	Duplicate validation added
BG-002	Cart total not updating	Change quantity	Medium	Closed	Fixed Calculation Loss

Notes

- All functional modules were tested successfully.
- Both positive and negative test cases were executed.
- JWT authentication was verified for secure access.
- CRUD operations for books, categories, wishlist, cart, reviews, and orders functioned correctly.
- The application was tested on Google Chrome and Mozilla Firefox.
- The system demonstrated stable performance under normal usage conditions.
